All rejected claims stand rejected under 35 U.S.C. § 103(a),
as unpatentable over Epstein (U.S. Patent No. 5,127,019) in view
of Hackel (U.S. Patent No. 6,198,069).

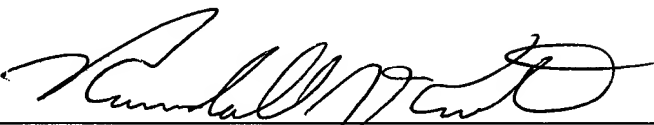

5 With this response Applicant forwards a declaration by one
of the co-inventor's, Dr. Jeffrey L. Dulaney pursuant to 37
C.F.R. § 1.131.

Pursuant to the declaration and copy of an April 24, 1998
letter addressed to the undersigned, Applicant respectfully
submits that the Hackel patent 6,198,069 having a filing date of
10 August 13, 1998 is not an appropriate or proper reference against
the present application.

Therefore, since the Hackel reference is not an appropriate
reference, the Examiner's *prima facie* combination of Epstein in
view of Hackel is therefore also inappropriate and should be
15 withdrawn. Applicant respectfully submits that the rejection
should be withdrawn. Further, Applicant respectfully submits
that all objected claims are dependent upon the rejected claims
and are allowable for the same reasons. Applicant respectfully
request that a Notice of Allowability be forwarded to the
20 undersigned.

If the Examiner has any questions or comments that would speed prosecution of this case, the Examiner is invited to call the undersigned at 219/485-6001.

Respectfully submitted,
